Wuhan Municipal Commission of Health and Health on pneumonia of new coronavirus infection

You are here: Home >> News >> Public Notice

Issuing authority: Wuhan City health committee | Published: 2020-01-19 00:43:34 | Hits: 72305 | Font Size: [Tai](#) [Zhong](#) [Small](#)

At 04:00 on January 17, 2020, 4 patients were cured and discharged, with 17 new cases and no deaths.

Analysis of the epidemiological data of the previously released cases of pneumonitis infected by the new coronavirus found that some cases had no history of contact with the South China Seafood Wholesale Market. On the basis of standardizing pre-screening triage and fever diagnosis, optimized test kits were used to sample and monitor unidentified pneumonia cases for fever diagnosis and isolation in the city, and 17 new types of coronavirus positive were detected. After comprehensive research and judgment by clinical experts, 17 cases were confirmed as confirmed cases , and all were treated in Wuhan Jinyintan Hospital and related designated hospitals . Of the 17 newly diagnosed cases, 3 were severe cases. The next step will continue to carry out the detection of suspected cases in the city.

As of 24:00 on January 17, 62 cases of pneumonitis with new coronavirus infection have been reported in our city, 19 cases have been cured and discharged, 8 cases are being treated in severe cases, and 2 cases have died. The remaining patients are in

stable condition. Institution receives isolation treatment. A total of 763 close contacts have been tracked, 681 medical observations have been lifted, and 82 people are still receiving medical observations. Among the close contacts, no related cases were found. Epidemiological investigations of new cases and follow-up investigations of close contacts are ongoing.
